EXPERIENCE

NeoDocto Inc, Manhattan, New York — *Front-end Developer Intern*

MARCH 2022 - AUGUST 2022

Industry: Digital Health Care

Website: <https://www.neodocto.com/>

Description:

- Led the end-to-end development of websites, employing expertise in HTML, CSS, and JavaScript to create dynamic and responsive user interfaces.
- Crafted visually appealing and user-friendly pages, prioritizing a balance between aesthetics and functionality to optimize the overall user experience.
- Collaborated closely with cross-functional team members, fostering a dynamic and cooperative work environment.
- Engaged in ongoing communication to align website development goals with broader organizational objectives, contributing to the overall success of projects.

Zuri Team, Lagos Nigeria — *Front-end Developer Intern*

MAY 2022 - OCTOBER 2022

Industry: Virtual and Remote Internship

Website: <https://internship.zuri.team/>

Description:

- Led the design and implementation of a responsive authentication system, ensuring a seamless and user-friendly login experience across various devices.
- Successfully integrated external APIs into front-end applications, expanding the functionality and feature set of our web projects.
- Thrived in a virtual work environment, actively participating in virtual meetings, utilizing collaboration tools, and maintaining effective communication channels to ensure seamless coordination with team members.

Certification - 2022

PROJECTS

Beemak E-commerce Website | <https://beemakfoods.netlify.app/>

- I developed the Beemak E-commerce website, a dynamic solution catering to the local foods and drinks market.

Portfolio Website | <https://dahud-yusuf.netlify.app>

- Designed and developed a personal portfolio website showcasing projects and skills, emphasizing a mobile-first approach and Tailwind CSS for styling.

URL Shortener | <https://url-shortner.netlify.app/>

Incorporated the [shrtcode](#) API into this project, providing users with the ability to:

- View the ideal site layout based on their device screen size
- Condense valid URLs efficiently
- Access a list of their shortened links persistently, even after refreshing the browser
- Copy shortened links to their clipboard effortlessly with a single click
- Receive an error message upon form submission if the input field is left empty.

Guess-My-Game | <https://yusfate4.github.io/Guess-My-Game/>

A captivating number-guessing application designed to challenge and entertain users. Users are prompted to input a number between 1 and 20, embarking on an engaging quest to correctly guess the target number.

User Information Retrieval |

<https://yusfate4.github.io/mini-project/>

The working web page harnesses the power of the jsonplaceholder API to dynamically fetch and display user data. Featuring a user-friendly interface, the project offers a convenient search option enabling users to locate specific individuals by their usernames.

Google Chrome User Guide |
